

KB Access

Capture the information essential to creating value for your company.

The all-in-one solution for SMEs, SMIs, ETIs and the self-employed

KB Access provides small and medium-sized businesses with the essentials a complete view of their markets and competitors, to help them their strategy and take action.

Simplify monitoring

A pre-configured and qualified set of sources lets you start your watch immediately. You can then enrich your database by easily configuring the sites you wish to monitor. You can precisely target and filter the most important information using your own monitoring criteria.

Share and use

Organize and distribute your content for collective knowledge and cross-functional involvement in your organization. You can push articles into newsletters or publish them on your own personalized distribution space. Thanks to the mobile application, your readers stay permanently connected to their environment.
